

Create Great-Looking Reports

FCS Express provides all the tools you need for creating great-looking customized reports.

Treatment time (min)	% Positive Cells	MFI of Positive Cells
0	0	n/a
30	10	100
60	40	465
90	50	799

Conclusions
90 minute treatment results in a **125%** increase in positive cells compared to 60 minute treatment.

Text Boxes

Are Full Word Processor

- Tables, bulleted lists
- Complete font and paragraph formatting

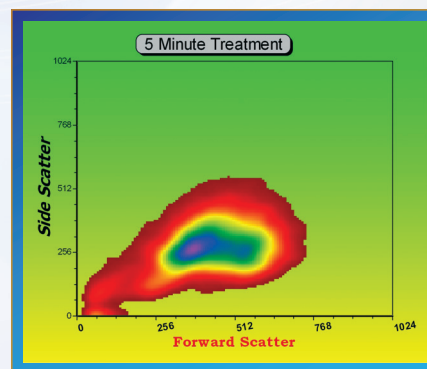

Complete Control

Over Plot Formatting

- You have the flexibility to change plot titles, axis labels, fonts and colors, legend formatting, backgrounds, and more. Finally your plots will look exactly the way you want them to.

Display Statistics and Other Dynamic Text Anywhere

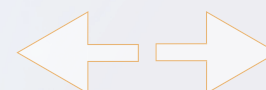

- Tokens update automatically when your analysis changes (*Just like the bold text in the figure above*)
- Tokens can display statistics, key words, gating and compensation information, user defined equations, and much more
- You can place tokens in text boxes anywhere on your report.
- Token font can change automatically based on user defined criteria

Spice Up Your Reports

With Lines, Arrows and Other Graphic Shapes

- Place images on the page – you can combine your flow analysis with microscope images
- Save your layout directly into PowerPoint™, PDF™ and a variety of high-quality image formats (BMP, JPG, TIF, PNG, GIF, EMF)
- Create custom reports directly in FCS Express, no need for multiple software programs to generate your dream report.
